

# SOCIAL MEDIA BACKGROUND CHECKS

## What types of workplace safety issues do we find?

### Percentage of "negative" material found

Roughly 10% of our reports come back with red flags highlighting potential workplace safety issues. We conducted a study over the past six months to determine the percentage of reports that contain content that we deem "negative." The results below reveal what type of material we find.

- Violent Behavior
- Unlawful Activity
- Sexually Explicit
- Racism or Intolerance

### Percentage of reports containing multiple filters

During our six month study, we found only one filter on 54% of our negative reports, while 9% of negative reports had all four filters flagged. Examine the breakdown below.

9%	4 Filters	21%	2 Filters
16%	3 Filters	54%	1 Filter

## WHAT DO WE LOOK FOR?

**Sexually Explicit Material**

**Potentially Unlawful Activity**

**Potentially Violent Behavior**

**Demonstrations of Racism and/or Intolerance**
